THIS NOTICE DESCRIBES HOW THE MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY

Effective Date: April 14, 2003
Revised: November 5, 2014

If you have any questions about this notice, please contact the hospital's Privacy Officer at: 610-567-6702.

Mercy Health System is required by the Health Insurance Portability and Accountability Act of 1996, and the Health Information Technology for Economic and Clinical Health Act (found in Title XIII of the American Recovery and Reinvestment Act of 2009) (collectively referred to as "HIPAA"), as amended from time to time, to maintain the privacy of individually identifiable patient health information (this information is "protected health information" and is referred to herein as "PHI"). We are also required to provide patients with a Notice of Privacy Practices regarding PHI. We will only use or disclose your PHI as permitted or required by applicable state law. This Notice applies to your PHI in our possession including the medical records generated by us.

Mercy Health System understands that your health information is highly personal, and we are committed to safeguarding your privacy. Please read this Notice of Privacy Practices thoroughly. It describes how we will use and disclose your PHI.

I. WHO WILL FOLLOW THIS NOTICE

This Notice applies to the delivery of health care by all Mercy Health System subsidiaries. It applies to:

- Any healthcare professional authorized to enter information into your medical record.
- All departments and units of the hospitals and other subsidiaries.
- Any member of a volunteer group we allow to help you.
- All employees, staff, students and other Mercy Health System personnel.

Mercy Health System subsidiaries and Trinity Health, a catholic healthcare system with facilities located in multiple states throughout the United States, follow the terms of this notice. In addition, the above persons, entities, sites, and locations may share PHI with each other for treatment, payment, or health care operations purposes as described in this notice.

II. HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU

The following categories describe different ways that we use and disclose medical information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of these categories.

For Treatment. We may use and disclose your PHI to provide you with medical treatment or services. We may disclose your PHI to doctors, nurses, technicians, students, pastoral care representatives, or other personnel who are involved in your care. For example, a doctor treating you for a broken hip may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can arrange for appropriate meals. If you are hospitalized, we also may disclose your PHI to people outside the hospital who may be involved in your medical care after you leave the hospital, such as family members, clergy and pastoral care, nursing homes, home health agencies or others we use to provide services that are part of your care, such as therapists or physicians. We may also use and/or disclose your PHI to tell you about treatment alternatives or other health-related benefits or services that may be of interest to you.

For Payment. We may use and disclose your PHI so that the treatment and services you receive from the health system may be billed to and payment may be collected from you, an insurance company, or a third party. For example, we may need to give your health plan information about treatment you received or will receive so your health plan will pay us or reimburse you for the treatment. We may also disclose your PHI to another provider, such as a physician, for payment purposes.

For Healthcare Operations. We use and disclose your PHI for our health care operations, which at Mercy Health System includes internal administration and planning and various activities that improve the quality and cost effectiveness for the care that we deliver to you. For example, we may use your PHI to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many patients to decide what additional services we should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, students, and other personnel for review and learning purposes. We may also disclose your PHI to other providers that have a relationship with you for purposes of quality improvement, peer review and other activities. We may also call you by name in a waiting room. We may use or disclose your information, as necessary, to contact you to remind you of an appointment. We will share your information with third party "business associates" that perform various activities (e.g. billing, transcription, software assistance) for the health system.

Fundraising Activities. We may use information about you to contact you in an effort to raise money for the hospitals and other subsidiaries. We may disclose information to a foundation related to the hospitals or health system so that the foundation may contact you in raising money. We may disclose your demographic information, the dates you received treatment or services, your treating physician, department of service and outcome information. Any fundraising communication sent to you will let you know how you can exercise your right to opt-out of receiving similar communications in the future.

Hospital Directory. Unless you tell us otherwise, we will include certain limited information about you in the hospital directory while you are an inpatient at the hospital. This information may include your name, location in the hospital, your general condition (e.g., fair, stable, etc.), and your religious affiliation. The directory information, except for your religious affiliation, may also be released to people who ask for you by name. Your religious affiliation may be given to a member of the clergy, such as a priest or rabbi, even if they don't ask for you by name. This is so your family, friends, and clergy can visit you in the hospital and generally know how you are doing. You have the right to request that your name not be included in the directory by indicating your preference on the Patient Consent Form or notifying the Privacy Officer in writing. If you opt-out of the facility directory, we cannot inform visitors of your presence, location or general condition.

We may also disclose facility directory information to the media (excluding religious affiliation) if the media requests information about you using your name and after we have given you an opportunity to agree or object.

Individuals Involved in Your Care or Payment for Your Care. We may disclose your PHI to a friend or family member who is involved in or paying for your medical care. This would include persons named in any durable health care power of attorney or similar document provided to us. You have a right to request that your information not be shared with some or all of your family or friends. In addition, we may disclose your PHI to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status, and location.

More Stringent State and Federal Laws.

The Commonwealth of Pennsylvania law is more stringent than HIPAA in several areas. Certain federal laws also are more stringent than HIPAA. Mercy Health System will continue to abide by these more stringent state and federal laws.

A. More Stringent Federal Laws. The federal laws include applicable internet privacy laws, such as the Children's Online Privacy Protection Act and the federal laws and regulations governing the confidentiality of health information regarding substance abuse treatment.

B. More Stringent State Laws. State law is more stringent when the individual is entitled to greater access to records than under HIPAA. State law also is more restrictive when the records are more protected from disclosure by state law than under HIPAA. In cases where we provide treatment to a patient who resides in a neighboring state, we will abide by the more stringent applicable state law.

Health Information Exchange. If a statewide or regional health information exchange ("HIE") operates in this state we will share your health records electronically with the exchange for the purposes of improving the overall quality of health care services provided to you (e.g., avoids unnecessary duplicate testing). The electronic health records will include sensitive diagnosis such as HIV/AIDS, sexually transmitted diseases, genetic information, and mental health substance abuse, etc. The HIE is functioning as our business associate and, in acting on our behalf, the HIE will transmit, maintain and store your PHI for treatment, payment and health care operation purposes. The HIE has a duty to implement administrative, physical and technical safeguards that reasonably and appropriately protect the confidentiality and integrity of your medical information. State law may provide you rights to restrict, opt-in or opt-out of the exchange. For more information please contact our Privacy Officer.

Marketing. Subject to certain limited exceptions, your written authorization is required in cases where we receive any direct or indirect financial remuneration in exchange for making the communication to you which encourages you to purchase a product or service or for a disclosure to a third party who wants to market their products or services to you.

Research. We will obtain your written authorization to use or disclose your PHI for research purposes when required by HIPAA. However, we may use or disclose your PHI without your specific authorization if the research approval process of our Institutional Review Board ("IRB") has waived the authorization requirement. The IRB is a committee that oversees and approves research involving living humans.

This includes PHI: (1) maintained in psychotherapy notes; (2) documenting mental health and developmental disabilities services; (3) regarding drug and alcohol abuse, prevention, treatment and referral; (4) relating to HIV/AIDS testing, diagnosis or treatment and other sexually transmitted diseases; and (5) genetic testing. Generally, we must obtain your written authorization to release this type of information. However, there are limited circumstances under the law when this information may be released without your consent. For example, certain sexually transmitted diseases must be reported to the Department of Health.

Sale of PHI. Subject to certain limited exceptions, disclosures that constitute a sale of PHI requires your written authorization.

Other Uses and Disclosures. Any other uses and disclosures of PHI not covered by this notice or the laws that apply to us will be made only with your written authorization. You may revoke that authorization in writing, at any time. You understand that we are unable to take back any disclosures we have already made with your authorization.
